Career objective

As an aspiring Full Stack Web Developer, I enjoy turning ideas into interactive, responsive websites. Recently, I've completed a practical front-end course, which helped me build real-world problem-solving skills. I'm now looking to join a team where I can grow, learn, and contribute with confidence

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS.

Backend: Node.js, Express.js, MongoDB, Mongoose, PostgreSQL, MySQL, Prisma ORM, Firebase Authentication, JWT

Tools: Git, GitHub, VS Code, Postman, Vercel

Projects

World's Marathons – A Marathon Event Management Platform

[Client](#) | [Server](#) | [Live](#)

World's Marathons helps manage marathon events with listings, login, and countdowns.

Technologies: Node.js, Express.js, MongoDB, React, JavaScript, React Router, Daisyui, etc.

Backend: Marathon Management: Name, start countdown dates, location, descriptions, etc.

Dashboard: users to manage, create, update, delete, and apply a marathon.

Search: Search Marathon Name or Location Sorting.

GreenNest - A Plant Event Management Platform

[Client](#) | [Server](#) | [Live](#)

GreenNest helps plant lovers in Bangladesh discover unique plants, get care tips, and grow together.

Technologies: Node.js, Express.js, MongoDB, React, JavaScript, Tailwind CSS, React Router, DaisyUI, etc.

Plant Management: Name, Category, Care, Next watering date, Descriptions, etc.

Dashboard: Users to manage, create, update, delete, and the users' plants available Section.

Search: Search Plant Name or Next Watering Date Sorting.

Dreams Estate - A Dreams Estate Event Management Platform

[Client](#) | [Server](#) | [Live](#)

Dreams Estate is a real estate platform where users explore, save, and buy properties, while agents and admins manage the platform.

Technologies: Node.js, Express.js, MongoDB, React, JavaScript, Tailwind CSS, React Router, DaisyUI, etc.

Smart Search & Wishlist – Browse only verified properties, search by location or price, and manage your wishlist with ease.

Seamless Transactions – Make offers, purchase securely with card payments, and manage properties from your dashboard.

Role-Based Access & Management – Admins, agents, and users have dedicated roles to manage listings, reviews, purchases, and offers with secure authentication.

Certification

Complete web development bootcamp with Programming Hero
Programming Hero | Remote

2025 | [Certificate](#)

Education: Bachelor of BISC [Hons] in Islamic Science (Al Quran)

Languages: Bengali (Native) | English (Conversation)
